

OJYA[®]
ORGANIC NATURALS

VJS PHARMACEUTICALS

A SNAPSHOT

VJS PHARMACEUTICALS stands as a prominent manufacturer and exporter of healthcare, personal care, and beauty products since 2003 in Delhi, India. Pioneering safe, natural-based formulations, we consistently meet international quality standards. With manufacturing facilities in Delhi and Delhi NCR, we have earned the reputation of a leading exporter to numerous countries worldwide. Our journey began with the brand VISIBLE EFFECTS in 2003, expanding to renowned international brands like OJYA, ZAREEN, NOUR, and JLS.

Presently, we export to over 30 countries, including South Korea, Indonesia, Turkey, Sudan, Egypt, Saudi Arabia, the United Arab Emirates, Peru, and more. Committed to continuous improvement, we collaborate 24x7 with valued partners to enhance brand distribution across key international market outlets, including hypermarkets, supermarkets, beauty salons, hotels, spas, and pharmacies.

OJYA ORGANIC NATURALS

FEELO-SOPHY

At VJS Pharmaceuticals, our vision is deeply rooted in a holistic philosophy that encompasses skin, body, and health care. We strive to forge a harmonious connection between the wealth of knowledge derived from modern scientific research and the enduring wisdom of Vedic sciences, standing the test of time.

Our commitment to well-being is manifested in the restoring, rejuvenating, and healing benefits found in our products. Natural Vedic extracts, elixirs, and essential oils form the core of our formulations, creating safe and potent blends. These not only provide instant relief but also offer enduring solutions to health, personal, and beauty care concerns.

Beyond individual well-being, we recognize our interconnectedness with the planet. Thus, we actively promote environmental awareness and adhere to eco-friendly practices. By contributing to the sustainability of our unique planet, we believe we are safeguarding not only the Earth but also our collective well-being. Our dedication to this cause is evident in our preference for natural products and the use of harmless, biodegradable chemicals.

Our motivation to embrace a holistic and environmentally conscious approach drives the development of a diverse range of natural and organic-based beauty and personal care products. When perusing our product portfolios, you'll find a myriad of options that reflect our unwavering commitment to offering solutions that prioritize both individual health and the health of the planet.

In essence, VJS Pharmaceuticals envisions a world where the synergy between modern science and ancient Vedic wisdom fosters holistic well-being. We take pride in our role as stewards of environmental consciousness, contributing to a sustainable future through the creation of natural, organic, and environmentally friendly products. Join us on this transformative journey towards a healthier, more balanced life for individuals and our planet alike.

OJYA ORGANIC NATURALS

KEY FEATURES

Inspired by Nature:

- 100% Natural Actives Based Product Range: Products formulated with ingredients derived from nature, such as plant extracts, essential oils, and herbal components.
- 100% Natural Product Range: Entire product line made from natural sources without synthetic additives.
- 100% Organic Certified Product Range: Products certified as organic, indicating the use of organic farming practices and the absence of synthetic chemicals.

Sustainable Products:

- Eco-friendly – Human-Friendly Products: Products designed to be environmentally sustainable and safe for human use, aligning with green practices.
- Recyclable Packaging: Packaging materials are designed for recycling, reducing environmental impact.
- Conservation of Natural Resources: The production process considers the preservation of natural resources, promoting sustainability.
- Animal Cruelty-Free: Products are not tested on animals, ensuring ethical and cruelty-free practices.

High Safety:

- More Herbs, Oils, and Natural Extracts: Emphasizes the use of natural ingredients like herbs, oils, and extracts known for their beneficial properties.
- Harmless Chemicals: Products formulated with chemicals that are safe for use and do not pose harm to the user or the environment.
- Gentle on Hair, Skin, and body with Rare Sensitivity: Designed to be mild and suitable for individuals with uncommon sensitivities, promoting overall well-being.

These features collectively highlight a commitment to natural, sustainable, and safe beauty and personal care products. The emphasis on eco-friendliness, organic certification, and cruelty-free practices aligns with current consumer preferences for ethical and environmentally conscious choices. Additionally, the use of natural ingredients and harmless chemicals reinforces a focus on safety and well-being for users.

QUALITY CERTIFICATIONS

A. CREDENTIALS:

FDA Approved: Compliant with the standards set by the U.S. Food and Drug Administration, ensuring product safety and efficacy.

GMP Certified: Adhering to Good Manufacturing Practices, a certification attesting to the consistent production of high-quality and safe products.

ISO Certified: Meeting the requirements of the International Organization for Standardization, reflecting a commitment to quality, safety, and efficiency.

Halal Certified: Products adhere to Islamic dietary laws, ensuring they are permissible and free from prohibited substances.

Organic Certified (wherever applicable): Recognition for using organic ingredients and sustainable farming practices in applicable products.

B. CLAIMS:

100% Herbal Actives: Formulated exclusively with herbal ingredients, emphasizing a natural and plant-based approach.

Eco-friendly - Human Friendly: Prioritizing environmental sustainability without compromising user well-being.

Recyclable Packaging: Packaging designed for easy recycling, contributing to eco-friendly practices.

Animal Cruelty-Free: Products developed without animal testing, aligning with ethical and cruelty-free principles.

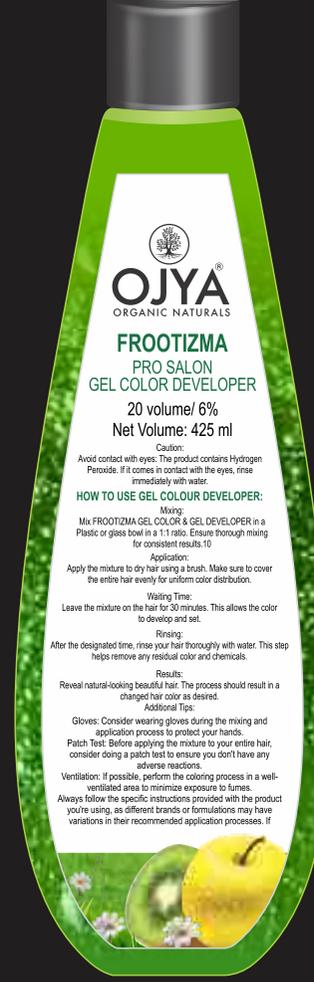

Free from BSE/TSE (Bovine/Transmissible Spongiform Encephalopathy): Ensuring the absence of substances related to prion diseases.

Free from Cortisone, Hormone, or Harmful Substances: Emphasizing the exclusion of potentially harmful ingredients, promoting safety for users.
